Welcome Message

Dear Colleagues,

After a long monitoring period of COVID-19 pandemic situation and its consequences on international travel, the AFSRA 2021 committee and board have decided to move the Congress partially virtual.

Moving online, will provide a great opportunity for our African colleagues to meet our international speakers without the expense of accommodation and travel.

We hope to welcome delegates from our own African society and our sister societies namely ASRA, ESRA, AOSRA and LASRA.

For those who have never been able to join our meetings before, the online format will meet their needs.

We have a comprehensive scientific program with virtual workshops, and we hope we will share our experience with anesthesiologists all over the world.

We hope that this crisis will be over soon. Wishing you to be safe and well.

Thank you very much and we look forward to welcoming you to AFSRA 2021

Yours sincerely,

*Prof. Ezzat Samy Aziz, MD, FRCA
